

# Bachelor of Arts in Economics

## International Economics Concentration

West Virginia State University offers a Bachelor of Arts degree in Economics with an International Economics concentration. Economics is the study of how the economy works using descriptions, called models, of how individuals and organization may make decisions to achieve their goals. Economic models are used to make predictions or forecasts. The B.A. degree in Economics at this university is designed to provide the opportunity and structure for students to acquire the knowledge and proficiency necessary for success as economics professionals when they go on to work for business, government, and international organizations. There are many career options available to the graduates of the economics department. These range from pursuing a professional career in government, business, finance industry, or international organization, to pursuing graduate or professional education in economics, business, law, or public health administration.
