The Student Affiliates of the American Chemical Society WVSU Chapter cosponsors:

Dr. Noelle Umback
Wallace Auditorium April 30\textsuperscript{th} 9:00 am

Dr. Umback works for the NYC Chief Medical Examiner's Department of Forensic Biology--the DNA lab.

In addition to criminal casework including homicides and sexual assaults, she was part of the team which helped make DNA identifications of hundreds of victims of the September 11\textsuperscript{th} World Trade Center attacks.

Her assignments include evidence examination and analysis, interactions with detectives and the district attorneys' offices, interpretation of DNA testing results, and court testimony.
