

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION WITH A CONCENTRATION IN AGRIBUSINESS

Bachelor of Science in Business Administration—Agribusiness Degree Map Overview

This map is a semester-by-semester course schedule. The milestones listed to the right of each semester are designed to keep you on course to graduate in four years. The schedule serves as a general guideline to help you build a full schedule each semester. Courses must be selected to satisfy all general education requirements unless your program meets these requirements with major courses. Milestones are courses and special requirements necessary for timely progress to complete a major. Missing milestones will result in major delays in your graduation. If a student is in non-compliance with milestones for two consecutive semesters he or she should consider changing the major in consultation with the advisors. This map is not a contract, either expressed or implied, between the University and the student, but represents a flexible program of the current curriculum which may be altered from time-to-time to carry out the academic objectives of the University. The University specifically reserves the right to change, delete, or add to any map at any time within the student's period of study at the University.

Bachelor of Science in Business Administration—Agribusiness Program Overview

The business administration program is designed to provide the undergraduate student with competencies in all fundamental areas of study in business—accounting, economics, finance, management, and marketing. Students in the management concentration take additional courses in the Agribusiness discipline.

Bachelor of Science in Business Administration—Agribusiness Career Opportunities

Careers awaiting a graduate with the BSBA degree with a concentration in Agribusiness include: Management, marketing, and finance careers in business entities, including food service companies and positions in government and industry organizations. This degree also prepares students to continue their education after graduation.

Free Elective	3		
Free Elective	2		
Semester Total	11		
TOTAL SEMESTER HOURS	120		** Consult faculty advisor and WVU Academic Catalog for General Education coursework options

Degree Requirements & Graduation

Students are responsible for knowing and fulfilling requirements for graduation. Accordingly, they should carefully read the catalog and curriculum requirements. The University cannot assume responsibility for failure of students to fulfill catalog and curriculum requirements. If questions arise about requirements, students should consult with the appropriate department chair, college dean or the Registrar several semesters prior to graduation. See below listed requirements for Graduation and consult your respective year WVU Academic Catalog.

1. A cumulative grade point average of 2.0 (i.e., a C average) on all work attempted with the exception of developmental courses and courses with grades of P, K, W, and AUD.
2. A cumulative grade point average of 2.0 in major and minor (if applicable) courses. The department will identify the courses that count toward the major and the major cumulative grade point average.
3. Completion of the total number of hours required in the curriculum elected.
4. The necessary residence requirement for a degree.
5. Payment of all outstanding financial obligations to the University.
6. All grades of I and Q must be satisfied before graduation.
